🇬🇧 Bangladesh

SUMMARY

Software Engineer focused on backend services, web development, and database design using Go, Node.js, Express.js, React.js and Next.js. Hands-on experience building full-stack applications, optimizing REST APIs, and maintaining relational databases. Brings strong algorithmic problem solving skills and a passion for clean code to a collaborative engineering team.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Go, JavaScript, TypeScript, SQL.
- **Backend Architecture:** Go, Node.js, Express.js, REST APIs, WebSockets, OAuth 2.0, JWT, GraphQL.
- **Frontend Architecture:** React.js, Next.js, TanStack Query, HTML5, CSS3, Tailwind CSS.
- **Databases and Systems:** PostgreSQL, MySQL, MongoDB, Linux, Relational Database Design.
- **Core Competencies:** Data Structures and Algorithms, Object-Oriented Programming, Agile, Git, GitHub, Postman.

EXPERIENCE

Software Engineer

Feb 2026 – Present

ActionBoard.AI (Deep Data Labs)

- Contributed to multi-tenant software systems using Next.js, TypeScript, and GraphQL, supporting 5,000+ active enterprise users and increasing platform throughput by 20%.
- Developed backend modules for task management and team messaging, boosting daily active usage by 15%.
- Integrated machine learning models into backend workflows, decreasing operational overhead by 30%.
- Optimized REST data fetching strategies, reducing API payload sizes and improving page load times by 20%.
- Collaborated in an Agile cross-functional team to deliver software features 14 days ahead of deployment schedules.
- Implemented continuous integration and release validation protocols via Postman, lowering debugging time by 25%.

Software Engineer Intern

Aug 2025 – Jan 2026

Luciety

- Developed authentication services utilizing Go, Google OAuth 2.0, JWT, and bcrypt, secure user sessions.
- Integrated third-party payment gateways with strict error handling protocols, minimizing transaction failures by 20%.
- Structured REST APIs and normalized PostgreSQL schemas, cutting database query response times by 25%.

Competitive Programming Lead

Jun 2025 – Jun 2026

Programming Community

- Orchestrated 5 programming contests, managing logistical planning and algorithmic problem sets for 100 participants, achieving a 98% satisfaction rate.
- Mentored 50 developers in data structures, algorithms, and competitive programming methodologies.

PROJECTS

Smart Parking System | Go, React.js, PostgreSQL

[\[GitHub\]](#)

- Engineered a full-stack web application for automated slot booking and transaction processing, serving 500+ active users and reducing manual booking overhead by 40%.
- Configured OAuth 2.0 authentication and connected email notification pipelines to automate user verification protocols.

E-Commerce Platform | React.js, Node.js, CSS

[\[GitHub\]](#)

- Designed a responsive interface, implementing dynamic product filtering to drive consumer engagement by 20%.
- Constructed reusable component libraries to enhance maintainability and increase rendering speed by 15%.

Blood Donation Network | Node.js, MongoDB

[\[GitHub\]](#)

- Created a centralized dashboard to process medical requests and accelerate donor matching workflows by 40%.
- Deployed NoSQL databases to track user information and process over 1,000 operational records.

Video Streaming Platform | React.js, JavaScript

[\[GitHub\]](#)

- Spearheaded a media application replicating core search algorithms, successfully processing 50 video playback queries.
- Improved user retention metrics by 15% through adaptive interface layouts and standard design principles.

EDUCATION

University of Information Technology and Sciences

Bachelor of Science in Computer Science and Engineering, (2022 – 2026)

ACHIEVEMENTS

- **Competitive Profiles:** Codeforces (Rank: Pupil), LeetCode, HackerRank, CodeChef and others platforms.
- **Problem Solving:** Solved 2,000+ algorithmic challenges and participated in 180+ competitive programming contests.
- **Inter-University Contests:** 57th Rank, AUST Code Clash (2025); 76th Rank, UIU CSE Fest IUPC (2025); 67th Rank, Uttara University IUPC (2025); 16th Rank, UAP Inter-University Junior Programming Contest (2024).
- **Intra-University Contests:** 3rd Rank, Skillathon Programming Contest, UITS (2025); 3rd Rank, CSE & IT Programming Contest, UITS (2025); 2nd Rank, CSE Day Programming Contest, UITS (2025).
- **Hackathons & National Events:** 2nd Rank, Hackify Fest (2025); 2nd Rank, National Hackathon.
